Johana Martinez Alvarado

johanamalv@gmail.com ❖ (831)902-8627 ❖ San Jose, CA

EDUCATION

University of California Santa Cruz **Santa Cruz, CA**
Bachelor of Science in Computer Science *June 2021*

Relevant Coursework:
- Data Structures and Algorithms
- Software Engineering
- Web Applications

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, Python, C, C++, HTML, CSS
- **Libraries:** React.js
- **Technologies:** Git, Github, Figma, Trello
- **Other:** Scrum

PROJECTS

Personal Portfolio johanamartinez.com
- Built a responsive multi-page website to showcase my projects by using **HTML**, **CSS**, **JavaScript** and **React.js**.
- Utilized project management software Trello to organize tasks and successfully deployed the application using Netlify.

Online Store
- Developed an online store web application containing a landing page, login page, register page and individual product pages utilizing **HTML**, **CSS**, **JavaScript** and **React.js.**
- Product images, price, description and title was retrieved from the **Fake Store API** by performing a **GET Request** for women's, men's and jewelry categories.

Boba Tracker
- Collaborated with peers and led a five-person team using Scrum practices to build a full stack web application project, where individual users can track their weekly milk tea purchases.
- Designed and redesigned the mockup using Figma and assisted in implementing the changes to the UI.
- Utilized **HTML**, **Tailwind CSS**, **JavaScript** and **React.js** to build an entry form where users can save drinks into an existing database by performing a **POST request**.

WORK EXPERIENCE

EyeC Optometry **Gilroy, CA / San Jose, CA**
Optician / Insurance Biller *June 2021 – Present*
- Trained new employees on various roles and tasks at a newly opened optometry practice.
- Organized and billed pending insurance claims to ensure payment from insurance companies.

Optometric Assistant /Receptionist *Oct 2014 – August 2018*
- Assisted two optometry doctors and effectively communicated with staff to maintain patient flow in a fast-paced environment.
